Safety

Mechanical safety latch with automatic engagement ensuring maximum safety when lift is in standing position.

Automatic

Automatic arm locking during lifting and automatic unlocking when the arms reach the floor.

Synchronization

Synchronization cables grant the levelling of the two carriages.

Maintenance free

Each column features a maintenance-free lifting cylinder.

Quality components

Laser cut carriages and arms – robot welding.

Easy adjustment

Easy to adjust cables.

High efficiency motors

Specially manufactured high efficiency motors.

Extra resistant column design

Exclusive 10+8 bending design to ensure max resistance to load.

Elevator auto mobil RAV 1450 N + Accesorii

--nou nout (in tipla)/ Nefolosit deloc

Features

Low Maintenance

All pivot points made with self lubricating bushings for long life.

Quick and Safe

The ideal lift for servicing tyres, brakes, suspension and bodywork. This lift of the latest generation has the following features: electro-hydraulic operation, high loading capacity and elevated lifting height, rapid cycle times. Being practical and easy to use, this lift guarantees the maximum safety to the user. A mechanical levelling system assures constant levelling of the lifting platforms regardless of weight distribution.

KONFORT 760R 2 GAS READY

This model is equipped with a high visibility colour TFT display with a graphic interface for ease of use.

The service management procedure is fully automatic, so there is no requirement for manual taps.

The distinctive features are the hermetically sealed bottle system, automatic service management system, refrigerant measurement and scale locking system.

The 760R can be purchased configured either for the old R134a refrigerant or the new R1234yf refrigerant. A retrofit kit is also available to change refrigerant type
